### Canon Knowledge Base - Procedure for using Focus Lock, AF ...

Oviously there is no mechanical focus where one can physically turn a focusing ring or the like. But it would seem to me that the optimum way to set the focus on a specific spot, and lock the focus, would be to use the "AF Lock" as described on page 114 of the manual, by using the usual autofocus, press the shutter half way down, and then press the left arrow key on the back.
