Energy And Conflict In Central Asia And The Caucasus

One of the significant factors impeding the process of integration between Central Asian countries is the question of water and energy resources of this region. The historical prerequisites of the present-day situation go back to the times of the former Soviet Union. In this era, the region relied upon a united water, energy and socio-economic system on an all-union scale; the division of all ...

release water from a number of large reservoirs during the cold months so as to generate hydropower for heating.

Water and Energy Conflict in Central Asia

Not too long ago, the Mediterranean was described as “NATO’s lake” — a sleepy backwater in a world dominated by conflict. Today, Israel’s quarrels with Lebanon, Palestine, and Syria are viewed — and minimized — as legacy conflicts, overshadowed by a new and unstable strategic environment centered upon competing visions of offshore energy and security in the eastern Mediterranean.

The eastern Mediterranean heats up as conflicts over ...

that expenditures on masks and vaccines have an impact on the economy.

Energy Is the Economy; Shrinkage in Energy Supply Leads to ...

The energy dilemma could hardly be more critical to our future, but there is as yet little evidence that it is being taken seriously. This post is based on a chapter from Post Carbon Institute's 2016 book *The Community Resilience Reader : Essential Resources for an Era of Upheaval*.

The Energy Crisis - Resilience

Experts agree we must massively increase energy efficiency savings to help avert the worst impacts of climate change. The same experts also agree we must massively increase the use of clean electricity to power our cars, trucks, buses, buildings, etc....
